Car sometimes makes a loud ticking noise, any ideas? First, specs: 03 Chevy Tracker, 4cyl 2.0L, approx 200k miles, auto, slow car, engine was replaced with one from a 01 Suzuki Grand Vitara because a coolant hose blew and the engine overheated (they're apparently rebadged cars). Noise can be heard here: <https://www.youtube.com/watch?v>

Acces PDF Chevy Tracker Ticking Noise

engines ticking noise and ...

If your engine ticks along with engine RPM and the ticking sounds slower, say once every engine revolution it could indicate that you've got rod knock. Rod knock comes from a bad bearing in your connecting rod. As the bearing wears out it will allow movement and that play will sound like tapping or clunking

Acces PDF Chevy Tracker Ticking Noise

Well a tapping noise really depends on where at in the engine that it is located. Ie. On the top of the eng this would be a lifter noise. On the sides of the engine this could be a wrist pin or piston prob. On the bottom of the engine this could be a crankshaft or rod bearing or main bearing However with the miles on your engine it could be major.
