Hannah Arendt The Human Condition

The Human Condition, first published in 1958, is Hannah Arendt's account of how "human activities" should be and have been understood throughout Western history. Arendt is interested in the vita activa as contrasted with the vita contemplativa and concerned that the debate over the relative status of the two has blinded us to important insights about the vita activa and the way in which it has changed since ancient times. She distinguishes three sorts of activity and discusses how they have been

The Human Condition - Wikipedia

Hannah Arendt dissected the human condition, meaning the human situation rather than human nature, into labour, work and action. She wrote discursively, often in very long sentences and with little structure, regularly dropping seed ideas or little pearls of observation randomly.

In The Human Condition (1958), Hannah Arendt discusses the public/private distinction with hope toward a more active political life, what she calls viva active (7). She argues that the dividing line between private and public has become blurred because we have come to understand political realms in terms of the family (28).

The Human Condition by Hannah Arendt - Goodreads

The Human Condition is a work by Hannah Arendt published in 1958. Hannah Arendt studies the vita activa for itself, regardless of the vita contemplativa: this leads to re-establish the hierarchy among the various activities of the vita activa, and more specifically to reaffirm the priority of the action on the work.

The Human Condition (Walgreen Foundation Lecture)

THE HUMAN CONDITION is among the top 10 most important theoretical works of the 20th century, and Arendt arguably among the greatest social theorists. For me, this book qualifies Arendt as the one greatest social theorist of modern times. Hannah Arendt will cure you of making false assumptions about something we like to call "human nature."
