Lean Audit Checklist | Continuous Improvement Toolkit

The 20 keys introduce the 20 areas in which a company has to improve itself in order to achieve shorter cycle times, better quality and lower cost. The system of the 20 keys essentially boils down to this: - Each key is related to either Q (better quality), C (lower cost) or D (delivery/cycle time); - Each key is scored from 1 (amateur) to 5 (best in class);

Lean Manufacturing “20 keys”

The Lean Audit is written for senior executives, line managers, business analysts, scientists, and investors. It allows managers to determine the baseline before introducing changes; it helps engineers design better systems; it allows consultants to quickly identify improvement potentials; and it provides insights that owners need to make optimal investment decisions.
