### Test Maker | Printable | Randomizable | Free Edition

The question paper generation software is the third module of the Addmen OMR software. However, it is not based on OMR technology. It is exclusively used to create test or question papers. Here are the features of this software.

### Question Paper Generation Software - Addmengroup

One of the most common applications for OMR printing is the use of multiple choice test sheets used by schools, colleges and universities. The student indicates the answer on the test by filling in the corresponding field, and the form is fed through an optical mark reader, a device that scans the document and reads the data from the marked fields.
