Urban Planning And Governance A

We acknowledge that urban planning is only one aspect of overall governance processes in recovery.

Governance is a complex and dynamic set of mechanisms that extend well beyond the formal agencies of government and political influences.

Governance A New Paradigm **Governance: Is there a Barcelona Model?**

The most basic object of urban governance is land allocation and land use management, which essentially is about who can do what where. The second most basic object of urban governance is the provision and management of basic infrastructure/services, such as water, sanitation, and waste management.
